The Second Crusade (Jonathan Phillips 2008) The Second Crusade (1145-1149) was an extraordinarily bold attempt to overcome unbelievers on no less than three fronts. Crusader armies set out to defeat Muslims in the Holy Land and in Iberia as well as pagans in northeastern Europe. But, to the shock and dismay of a society raised on the triumphal legacy of the First Crusade, only in Iberia did they achieve any success. This new edition takes into account the wealth of rich and varied recent research to show how the Second Crusade should be seen as central to the European experience in the twelfth century. It engages with key historical debates of the past decade, including how Crusades were formed, the political culture and social networks of crusading, and the effects of crusading on western religious and aristocratic culture. It now extends into the fifteenth century to discuss the lasting ramifications of the Crusades, and illustrates their legacy into the early modern period. It is essential reading for all students of the Crusades and medieval history.

The Routledge Companion to the Crusades - Peter Lock 2015-04-15 A compendium of facts, figures, maps, family trees, summaries of the major crusades and their historiography, the Routledge Companion to the Crusades spans a broad chronological range from the eleventh to the eighteenth centuries, and gives a chronological framework around which to place its essays on the modern crusading movement. Not just the history of the Crusades, but an overview of the logical, economic, social and religious context of this history is a core text for students of history and religious studies.

The Second Crusade - Jonathan Phillips 2008-05-08 The Second Crusade (1145-1149) was an extraordinarily bold attempt to overcome unbelievers on no less than three fronts. Crusader armies set out to defeat Muslims in the Holy Land and in Iberia as well as pagans in northeastern Europe. But, to the shock and dismay of a society raised on the triumphal legacy of the First Crusade, only in Iberia did they achieve any success. This book, the first in 140 years devoted to the Second Crusade, offers insights into initial success and subsequent failure, charts the development of new attitudes towards Islam and its followers, and shows the effects of the crusading movement on the history of the Latin East and the rest of Europe, and between a supposedly great king and lesser ones.

Cruising in Art, Thought and Will - 2018-11-01 This volume captures the diversity of approaches in crusade scholarship, which often cross cultures and academic disciplines. Essays by the contributors study the role of art and architecture, literary, legal practice, literature, and politics in the institution of crusade.

Emotions, Communities, and Difference in Medieval Europe - Maureen C. Miller 2017-01-12 This book of eleven essays by an international group of scholars in medieval studies honors the work of Barbara H. Rosenwein, Professor emerita of History at Loyola University Chicago. Part I, “Emotions and Communities,” consists of essays that make use of the Rosenwein’s well-known and widely influential work on emotions and medieval communities. They employ a wide range of sources from northern Europe, medieval and modern Italy, Germany, the Byzantine Empire, and the Islamic World. These essays employ a wide variety of source material such as chronicles, monastic records, painting, music theory, and religious practice to elucidate emotionality and communitas in a range of social and cultural contexts. Emotions and Communities and Difference in Medieval Europe is a unique contribution to the study of the medieval European world, and demonstrates how the two countries became strong kingdoms and important powers internationally by their participation in the crusading movement.

Just Wars, Holy Wars, and Jihads - Sohail H. Hashmi 2012-08-16 Just Wars, Holy Wars, and Jihads explores the development of Christian, Muslim, and Jewish thinking on just war, holy war, and jihad over the past fourteen centuries.

The Haskins Society Journal 24 - Corliss K. Slack 2009-07-24 This one-volume overview provides an accessible reference work for scholars, students, and general readers on the crusading movements that began in the eleventh century. Its essays cover the Crusades, crusading orders, battles and sieges, use of weapons and armor, and the deeper issues of the political and cultural background. Complete with a detailed chronology and a bibliography, this work allows readers to learn how Europe was changed forever by these battles with Islam.

The Crusades and the Expansion of Catholic Christendom, 1000-1714 - John France 2006-03-01 The Crusades and the Expansion of Catholic Christendom, 1000-1714 is a fascinating and accessible survey that traces the medieval Crusades in their European context, and examines, for the first time, their impact on European expansion. Taking a unique approach that focuses on the motivation behind the Crusades, John France chronologically examines the whole crusading movement, from the development of a crusading impulse in the eleventh century, through the enmity between the Crusades and the imperialist emperors of the early modern period.

Communication in the Middle Ages was better developed than often assumed and institutions, ideas, and military technology was exchanged rapidly, meaning it was possible to coordinate great military expeditions across the geographical periphery of Western Europe. Both Denmark and Portugal were closely connected to the sea and developed strong fleets, at the entrance to the Baltic and in the Mediterranean Seas respectively. They also both had religious borders, to the pagan Wends and to the Muslims, that were pushed forward in almost continuous Crusades throughout the centuries. Concluding with an assessment of the influence of the Crusades across history, and replete with illustrations, maps, timelines, guides for further reading, and a detailed list of rulers across Europe and the Muslim world, this study provides students with an essential guide to a central aspect of medieval history.

Cruising in the Edges of Europe - Karl Villen Jensen 2016-10-14 This book is the first to compare Denmark and Portugal systematically in the High Middle Ages and demonstrates how the two countries became strong kingdoms and important powers internationally by their participation in the crusading movement. Communication in the Middle Ages was better developed than often assumed and institutions, ideas, and military technology was exchanged rapidly, meaning it was possible to coordinate great military expeditions across the geographical periphery of Western Europe. Both Denmark and Portugal were closely connected to the sea and developed strong fleets, at the entrance to the Baltic and in the Mediterranean Seas respectively. They also both had religious borders, to the pagan Wends and to the Muslims, that were pushed forward in almost continuous Crusades throughout the centuries. Concluding with the Edges of Europe follows the major campaigns of the kings and crusaders in Denmark and Portugal and compares war-technology and crusading ideology, highlighting how the countries learned from each other and became organised for war.

Cruising and the Crusader States - Andrew Jetchev 2017-02-17 Cruising and the Crusader States explores how the idea of holy war emerged from the troubled society of the eleventh century, and why Jerusalem and the Holy Land were so important to Europeans. It follows the progress of the major crusading expeditions, their strategy and development, failure and success. In particular, the publication of historical sources in all relevant languages - narrative, homiletic and documentary - in trustworthy editions, but also in English translation.

Particular attention is given to the publication of historical sources in all relevant languages - narrative, homiletic and documentary - in trustworthy editions, but also in English translation.
What Were the Crusades? Jonathan Riley-Smith 2004-09-21 Riley-Smith’s acclaimed book is now regarded as a classic.
