**Economic ideology - Wikipedia**

An economic ideology is a set of views forming the basis of an ideology on how the economy should run. It differentiates itself from economic theory in being normative rather than just explanatory in its approach, whereas the aim of economic theories is to create accurate explanatory models to describe how an economy currently functions. However, the two are closely interrelated, as underlying

**The German Ideology. Karl Marx 1845**

Marginal note by Marx: So-called objective historiography consisted precisely, in treating the historical relations separately from activity. Reactionary character. — and even more consistently the course of history must appear to Saint Max Stirner, who knows not a thing about real history, as a mere “tale of knights, robbers and ghosts,” from whose visions he can, of course, only save
