Creating, contemplating, and collecting our likenesses. In this sumptuously illustrated book, Richard H. Saunders explores our collective understanding of portraiture, its history in America, how it shapes our individual and national identity, and why we make portraits - whether for propaganda and public influence or for personal and private appreciation. American Faces is a rich and fascinating view of ourselves.
leadership. This collective biography highlights the important part they played in forging new roles for women, especially in social reform, education, and suffrage.

Flappers and the New American Woman—Catherine Gourley 2008
Examines the symbols that defined perceptions of women during the late 1910s and 1920s and how they changed women's role in society.

Radical Feminism—Barbara A. Crow 2000-02-01
This text permits the original work of radical feminists to speak for itself. Comprised of pivotal documents written by US radical feminists, the book contains both unpublished and previously published material.

Beginning in 1963 with the publication of Betty Friedan’s The Feminine Mystique and reaching a high pitch ten years later with the televised mega-event of the Battle of the Sexes—the tennis match between Billie Jean King and Bobby Riggs—the mass media were intimately involved with both the distribution and the understanding of the feminist message. This mass media promotion of the feminist profile, however, proved to be a double-edged sword, according to Patricia Bradley, author of Mass Media and the Shaping of American Feminism, 1963-1975. Although millions of women learned about feminism by way of the mass media, detrimental stereotypes emerged overnight. Often the events mounted by feminists to catch the media eye crystallized the negative image. All feminists soon came to be portrayed in the popular culture as bra burners and strident women. Such depictions not only demeaned the achievements of their movement but also limited discussion of feminism to those subjects the media considered worthy, primarily equal pay for equal work. Bradley’s book examines the media traditions that served to curtail understandings of feminism. Journalists, following the craft formulas of their trade, equated feminism with the bizarre and the unusual. Even women journalists could not overcome the rules of What Makes News. By the time Billie Jean King confronted Bobby Riggs on the tennis court, feminism had become a commodity to be shaped to attract audiences.

Love, Fiercely—Jean Zimmerman 2012-03-13
The true story of the New York society couple portrayed in the John Singer Sargent painting—an architect and an heiress who became passionate reformers. Contemporaries of the Astors and Vanderbilts, they grew up together along the shores of bucolic Staten Island, linked by privilege—her grandparents built the world’s fastest clipper ship, while his family owned most of Murray Hill. Theirs was a world filled with mansions, balls, summer homes, and extended European vacations. This fascinating biography re-creates the glittering world of Edith Minturn and Isaac Newton Phelps Stokes—and reveals how their love for each other was matched by their dedication to others. Newton became a passionate preserver of New York history and published the finest collection of Manhattan maps and views in a six-volume series. Edith became the face of Edith and Newton battled together on behalf of New York’s poor and powerless—and through it all, sustained a strong-rooted marriage. From the splendid cottages of the Berkshires to the salons of 1890s Paris, Love, Fiercely tells the real-life story behind Mr. and Mrs. 1. N. Phelps Stokes—one of the Gilded Age’s most famous works of art. “With an impressive amount of research behind every page, Zimmerman manages to capture the sweeping drama of the turn of the century as well as the compelling story of a couple who knew how to love, fiercely. Her superb pacing and gripping narrative will appeal to all who enjoy history, biography, and real-life romance.”—Library Journal

Down from the Pedestal—Maxine Harris 1994
A fascinating new look at adult female development explores our culture’s idealized images of women, showing how these help determine how women lead their lives and offering alternate themes for life’s stages that help break down these conﬁning idealized notions.

The Age of Garvey—Adam Ewing 2016-09-13
A groundbreaking exploration of Garveyism’s global inﬂuence during the interwar years and beyond J amaican activist Marcus Garvey (1887-1940) organized the Universal Negro Improvement Association in Harlem in 1917. By the early 1920s, his program of African liberation and racial uplift had attracted millions of supporters, both in the United States and abroad. The Age of Garvey presents an expansive global history of the movement that came to be known as Garveyism. Offering a groundbreaking interpretation of global black politics between the First and Second World Wars, Adam Ewing charts Garveyism’s emergence, its remarkable global transmission, and its inﬂuence in the responses among African descendants to white supremacy and colonial rule in Africa, the Caribbean, and the United States. Delving into the organizing work and political approach of Garvey and his followers, Ewing shows that Garveyism emulated the rich tradition of pan-African politics that had established, by the First World War, lines of communication among black intellectuals on both sides of the Atlantic. Garvey’s legacy was to reengineer this tradition as a vibrant and multifaceted mass politics. Ewing looks at the people who enabled Garvey’s global spread, including labor activists in the Caribbean and Central America, community organizers in the urban and rural United States, millennial religious revivalists in central and southern Africa, welfare associations and independent church activists in Malawi and Zambia, and an emerging generation of Kikuyu leadership in central Kenya. Moving away from the images of quixotic business schemes and repatriation efforts, The Age of Garvey demonstrates the consequences of Garveyism’s international presence and provides a dynamic and uniﬁed framework for understanding the movement, during the interwar years and beyond.

Swing Shift—Sherrie Tucker 2000-06-06
The forgotten history of the “all-girl” big bands of the World War II era takes center stage in Sherrie Tucker’s Swing Shift. American demand for swing skyrocketed with the onslaught of war as millions—isolated from loved ones—sought diversion, comfort, and social contact through music and dance. Although all-female jazz and dance bands had existed since the 1920s, now hundreds of such groups, both African American and white, barnstormed ballrooms, theaters, dance halls, military installations, and made swing shifts on the home front and abroad. Filled with firsthand accounts of more than a hundred women who performed during this era and complemented by thorough—and eye-opening—archival research, Swing Shift not only offers a history of this significant aspect of American society and culture but also examines how and why whole bands of dedicated and talented women musicians were dropped from—or never inducted into—our national memory. Tucker’s nuanced presentation reveals who these remarkable women were, where and when they began to play music, and how they navigated a sometimes wild and bumpy road—including their experiences with gas and rubber rationing, travel restrictions designed to prioritize transportation for military needs, and Jim Crow laws and other prejudices. She explains how the expanded opportunities brought by the war, along with sudden increased publicity, created the illusion that all female musicians—no matter how experienced or talented—were “Swing Shift Maisies,” 1940s slang for the substitutes for the “real” workers (or musicians) who were away in combat. Comparing the working conditions and public representations of women musicians with figures such as Rosie the Riveter, WASOs, USO hostesses, pin-ups, and movie stars, Tucker chronicles the careers of such bands as the International Sweethearts of Rhythm, Phil Spitalny’s Hours of Charm, The Darlings of Rhythm, and the Sharon Rogers All-Girl Band.

In Touch with Eternity—Don Victor Bovey 2002-06-01
Explore the gender dimension and expand the dialogue in your classroom through this collection of case studies, empirical studies, and theoretical essays on women’s issues in public administration. This is the first book of its kind written about the female endeavor in public administration from the perspective of female public administrators and academics. Women in Public Administration illuminates women’s past and emerging challenges, in a predominantly male based public sector. Your students will gain a clear understanding of how women administrators have been affected by male dominated labor markets, ethics and law, management, financial institutions, and public service. This book extends beyond the existing works in the field by furthering the discussion and bridging the gender gap in public administration theory. It is a must have addition to Introduction to Public Administration, Ethics, Women in Politics, Gender Studies or Diversity classes.

The New Woman—Juliet Gardiner 1993

**The Spectacle of Women**- Lisa Tickner 1989-03-31 Too “artistic” for political history, too political for the history of art, the visual history of the campaign for women’s suffrage in Britain has long been neglected. In this comprehensive and pathbreaking study, Lisa Tickner discusses and illustrates the suffragist use of spectacle—the design of banners, posters and postcards, the orchestration of mass demonstrations—in an unprecedented propaganda campaign.

**Prime-Time Feminism**- Bonnie J. Dow 1996-06 Selected by Choice magazine as an Outstanding Academic Title Dow discusses a wide variety of television programming and provides specific case studies of The Mary Tyler Moore Show, One Day at a Time, Designing Women, Murphy Brown, and Dr. Quinn, Medicine Woman. She juxtaposes analyses of genre, plot, character development, and narrative structure with the larger debates and controversies that surround women on television.

**The Late-Victorian Marriage Question**- Jo Freeman 2002 In this important volume, Jo Freeman brings us the very full, rich story of how American women entered into political life and party politics—well before suffrage and, in many cases, completely separate from it. She shows how women carefully and methodically learned about the issues, the candidates, and the institutions, put themselves to work, and made themselves indispensable not only to the men running for office, but to the political system overall.

**Feminist Visions of Gender Similarities and Differences**- Meredith M. Kimball 1995 Winner of the Distinguished Publication Award 1996 from the Association for Women in Psychology. Feminist Visions of Gender Similarities and Differences opens a dialectic between the two traditions of feminism—similarities-based and differences-based—and generates useful scientific, political, and psychological tensions. Psychologists and scholars can benefit from Meredith Kimball’s analysis and the tensions she creates because they ultimately broaden feminist visions. She informs the political analysis of those working on the inside and those on the outside of feminism to end all forms of discrimination and oppression. In opening the dialogue between the two traditions, Kimball presents a brief history of gender research and equal-rights feminisms in the early twentieth century, with an in-depth analysis of the work of Leta Stetter Hollingworth. analyzes women’s experience in and feminist critiques of science and technology. analyzes research on gender-related similarities and differences in mathematics achievement, presents a brief history of psychoanalytic gender theory and maternal feminisms in the early twentieth century, with an in-depth analysis of the work of Karen Horney. analyzes Kohlberg’s and Gilligan’s models of moral development. gives a broad overview and analysis of women’s caregiving in North America and cross-culturally in motherist-based political movements. The educated reader, whether actively involved in feminism or the general political arena, can apply the non-reductionist political analysis to their own theories and research. Because all oppressed groups face dilemmas of integrating into the dominant culture versus changing the dominant culture, members of these groups will appreciate the over-arching political analysis that forms the theme of Feminist Visions of Gender Similarities and Differences.

**Women of Color and Southern Women**- Andrea Timberlake 1988 Includes research on six groups of women: African American, Asian American, Latina, Native American, Southern, and women of color.
