The study begins with a consideration of Turgenev’s masterpiece Fathers and Children and traces the evolution of novel. This genre is a uniquely Russian phenomenon and one that is of central importance in Russian literature. The Cultural Origins of the Socialist Realist Aesthetic, Irina Gutkin brings together the best work written on the imposed by the Stalinist regime, it is now understood to be an aesthetic movement in its own right, one whose internal logic had to be understood if it was to be criticized. International specialists remain divided, however, over the provenance of Soviet aesthetic theory, particularly over the role of the avant-garde in its emergence. In The Cultural Origins of the Socialist Realist Aesthetic, Irina Gutkin brings together the best work written on the subject in a way that socialists and non-socialists alike can understand.

The Byt, a term connoting both the everyday and its many petty problems, is an enduring yet neglected theme in Russian literature: its very ordinariness causes many critics to overlook it. Prose of Life examines how six female authors employed images of daily life to depict women’s experience in medieval life and letters; womanliness, marriage, and misogyny in Chaucer; sex and politics in Pope’s The Rape of the Lock; the feminist utopias of Charlotte G. Cilman and Merre Perry; and—considering women as writer—the scene, or place, of writing in Christine de Pizan and Virginia Woolf.

The Women’s Liberation Movement in Russia—Richard Stites 1970-1921 The book offers a brilliant treatment of many facets of its subject, but it also ends up being, for the reader, one of the finest general histories to be found, of these crucial years in Russian history. The source material is eminently useful and detailed, clearly and accessibly written. It is a notable achievement. Not only does the writing in, at many points, the boldest, clearest I ever almost ever found in the Academy. The author’s opinions, summaries, insights easily spill out of the historical constructions. The presence of women (the chapter dedicated to this ignores behind his quotes) in every word, is within the material is continued. The reader gets, not only huge amounts of information, but an authoritative presence, as company, that is often daring, bold, insightful, revolutionary. And one stylistic point made me especially happy: when itines uses metaphors to explain history, these are not just literary devices, but their internal implications are followed through in the prose.”—from www.goodreads.com

The Prose of Life:Women’s Fiction 1917-1964—Katerina Clark 2000 A new Afterword brings the history of Socialist Realism to its end at the close of the 20th century.

Textual Liberation (Borduiche Revivals) Helena Fors-Fossa 2014-11-13 Feminist writing has emerged in recent years as a major influence of twentieth-century European literature. Textual Liberation, first published in 1991, provides a timely and wide-ranging survey of twentieth-century feminist writing in Europe, presenting texts from a number of countries and highlighting some of the commonalities and contrasts. The contributors emphasize the wider context—political, social, economic—in which the texts were produced. They cover feminist literature in Britain, Scandinavia, Germany, Eastern Europe, Russia, France, Spain, Italy, and Turkey, considering a variety of genres, including fiction, poetry, drama, essays, and autobiography. Each chapter contains an extensive bibliography with special emphasis on material available in English. A stimulating introduction to the development of European feminist writing. Textual Liberation will be an invaluable resource for students of women’s literature, women’s studies, and feminism.

Women, the Family, and Freedom: 1880-1950—Susan G. Bell 1983 This is the second book in a two-part collection of 264 primary source documents from the Enlightenment to 1950 chronicking the public debate that raged in Europe and America over the role of women in the Russian family. The present volume looks at the period 1880 to 1950. The central issues discussed here are the roles of the wife and the mother. These issues were political, economic, and religious dynamics. They exploded in debates of philosophers, political theorists, scientists, novelists, and religious and political leaders. This collection emphasizes the debate by juxtaposing provoking and dissenting points of view at given historical moments (e.g. Marx vs. Bakunin, Nietzsche vs. Schopenhauer, and Freud vs. Margaret Maud). Each section is preceded by a contextual headnote pinpointing the documents significance. Many of the documents have been translated into English for the first time.

Women's Works in Stalin's Time-Beth Holmgren 1993-11-22 - Beth Holmgren gives a superlative comparative analysis of the literary legacy of the two memoirists... -- Times Literary Supplement "Beth Holmgren's book is a highly original and very productive critical appraisal of the work of Likiia Chukovskaya and Natasha Mambuladze... -- The Russian Review "This fine book, with its copious, informative notes and profus Holmgren, will interest students of 20th-century literature and theorists of autobiography, feminist criticism, and gender studies... -- Choice "...a fascinating book that provides a powerful testament to the strength and endurance of women in a particularly ghastly period of history... -- Signs "... impressive, eloquently written... an integrated comparative study of two very different female survivors of the Stalinist night... -- Caryl Emerson "...a bold scholarly act... The writing is excellent throughout..." -- Barbara Holtd.

Two extraordinary women writers are evoked as models of women's heroic roles in preserving Russian culture in Stalin's time. A fresh and eloquent approach to the literature of the Stalinist age.

Transgressive Women in Modern Russian and East European Cultures-Yana Hashamova 2016-10-04 Investigating the genesis of the proscribed "crimee" and implied ills of the female performing group Pupy Rat, the most famous Russian feminist collective to date, the essays in Transgressive Women in Modern Russian and East European Cultures: From the Bad to Blasphemous examine what constituted social and political behavior for women in Russia, Poland, and the Balkans, and how and to what effect female performers, activists, and fictional characters have indulged in such behavior. The chapters in this edited collection argue against the popular perceptions of Slavic cultures as overwhelmingly patriarchal and Slavic women as complicit in their own repression, contextualizing proto-feminist and feminist transgressive acts in these cultures. Each essay offers a close reading of the transgressive texts that women authored or in which they figured, showing how they navigated, targeted, and, in some cases, co-opted these obstacles in their bid for agency and power. Topics include studies of how female performers in Poland and Russia were licensed to be bad (for effective comedy and popularise office appeal), analyses of how women in film and fiction dare sacrilegious behavior in their prescribed roles as daughters and mothers, and examples of feminist political subversion through social activism and performance art.

Gender and Sexuality in Russian Civilization Peter I. Barta 2013-06-17 Gender and Sexuality in Russian Civilization considers gender and sexuality in modern Russia in the nineteenth and early twentieth centuries. Chapters look individually at gender and sexuality through history, art, folklore, philosophy or literature, but are also arranged into sections according to the arguments they develop. A number of chapters also consider Russia in the Soviet and post-Soviet periods. Thematic sections include: *Gender and Power* *Gender and National Identity* *Sexual Identity and Artistic Impression* *Literary Discourse of Male and Female Sexualities* *Sexuality and Literature in Contemporary Russian Society*

Women's Studies-British Library 1990 This volume records the proceedings of a recent colloquium organized by The Institute of Commonwealth Studies at the British Library. The papers are concerned with the development of women's studies in relation to the different disciplines. The principal topics covered include: a review of the state of Women's Studies in British Universities; an overview of British Library resources in Western and Oriental collections of printed books, newspapers, manuscripts and archival materials, a discussion of present and future collection development in the RL and other research libraries; and the user perspective. With contributions from librarians, academics, writers and publishers, this colloquium records a survey of current trends and likely future developments in the subject.

Politics, Feminism and the Reformation of Gender-Jennifer Chapman 2004-08-02 Caught between their female gender and their aspirations in a public sphere founded on the gender role of men, women face a problem that is more intractable than conventional feminist political analysis has fully recognized. In this book, Jennifer Chapman addresses both the substance of the problem and feminist strategies for change. Male dominance of political sites is virtually universal and yet there is no general theory of recruitment to account for this. Jennifer Chapman uses a rigorous comparative study of political recruitment to show why different models of the process among men produce near-identical results, irrespective of context. She then looks beyond this general pattern to its gender basis, and to strategies for change.

A Companion to the Russian Revolution-Daniel Orlovsky 2020-10-05 A compendium of original essays and contemporary viewpoints on the 1917 Revolution, The Russian revolution of 1917 rearrested throughout an impetus that covered one-sixth of the world. It altered the geo-political landscape of not only Eurasia, but of the entire globe. The impact of this immense event is still felt in the present day. The historiography of the last two decades has challenged conceptions of the 1917 revolution as a monolithic entity—the causes and meanings of revolution are many, as is reflected in contemporary scholarship on the subject. A Companion to the Russian Revolution offers far more than thirty original essays, written by a team of respected scholars and historians of 20th century Russian history. Presenting a wide range of contemporary perspectives, the Companion discusses topics including the dynamics of violence in war and revolution, Russian political parties, the transformation of the Orthodox church, Bolshevism, Liberalism, and more. Although primarily focused on 1917 itself, and the singular Revolutionary experience in that year, this book also explores time-periods such as the First Russian Revolution, early Soviet government, the Civil War period, and even into the 1920's. Presents a wide range of original essays that discuss brings together in-depth coverage of political history, party history, cultural history, and new social approaches Explores the long-range causes, influence on early Soviet culture, and global after-life of the Russian Revolution Offers broadly-conceived, contemporary views of the revolution largely based on the author's original research Links Russian revolutions to Russian Civil Wars as concepts A Companion to the Russian Revolution is an important addition to modern scholarship on the subject, and a valuable resource for those interested in Russian, Late Imperial, or Soviet history as well as anyone interested in Revolution as a global phenomenon.

Gender in Twentieth-Century Eastern Europe and the USSR-Catherine Baker 2014-11-18 A concise and accessible introduction to the gender histories of eastern Europe and the Soviet Union in the twentieth century. These essays juxtapose established topics in gender history such as motherhood, masculinities, work and activism with newer areas, such as the history of imprisonment and the transnational history of sexuality.

Constructing the Stalinist Body-Kath A. Lines 2009

Absolutizing Death-Irene Maving-Delic 1992-11-01 The idea of absolution death was one of the most influential myth-making concepts expressed in Russian literature from 1900 to 1930, especially in the works of writers who attributed a "life-modeling" function to art. To them, art was to create a life so aesthetically organized and perfect that immortality would be an inevitable consequence. This idea was mirrored in the thought of some who believed that the political revolution of 1917 would bring about a revolution in basic existential facts: specifically, the belief that communism and the accompanying advance of science would ultimately be able to bestow physical immortality on mortals. To restore the belief in immortality, and thus aspiring to equality with God. Writers as different as the "decadent" Fyodor Sologub, the "political" Maxim Gorky, and the "gothic" Nikolai Ognyov created works for making mortals into gods, transforming the raw materials of current reality into legend. The book first outlines the ideological context of the immaterialization project, notably the impact of the philosophers Fyodorov and Solovyov. The remainder of the book consists of close readings of texts by Sologub, Gorky, Blok, Ognyov, and Zabolotsky. Taken together, the works yield the "salvation program" that tells people how to abolish death and live forever in an eternal, self-created paradise.

Military Masculinity and Postwar Recovery in the Soviet Union-Erica L. Fraser 2019-05-02 Rearming and rearming had to be reimagined and resold to the public, which involved writing women out and re-establishing man's military identity as the premier form of masculinity in Soviet society.
